T7.3.6 modified - Competitors marks are then calculated as a percentage of that index – the competitors best time being divided by the index figure and multiplied by 100. In addition, competitors will be awarded one bonus point for each competitor beaten in class, up to a maximum of five bonus points.

T7.4.1 - in the event that the best 50% of finishers (as defined in T7.3.4) represents less than five competitors, scores equivalent to that of the class winner must be added to the results of the class a sufficient number of times so that the average for the class can be based on five scores.

#### **[14] HILLCLIMB CHAMPIONSHIP**

**[14.1]** For list of qualifying rounds please refer to the Championship Calendar 2018.

**[14.2]** Points will be scored on each qualifying event as follows:

Calculations as per MSA Regulations T7.3.4, T7.3.6 and T7.4.1 modified as follows:

T7.3.4 - an Index of Performance will be established for each class by taking the average of the best performances of the best 50% of finishers (or if there is an odd number of finishers, the total plus one) in the respective class. Classes will be taken as those on the event.

T7.3.6 modified - Competitors marks are then calculated as a percentage of that index – the competitors best time being divided by the index figure and multiplied by 100. In addition, competitors will be awarded one bonus point for each competitor beaten in class, up to a maximum of five bonus points.

T7.4.1 - in the event that the best 50% of finishers (as defined in T7.3.4) represents less than five competitors, scores equivalent to that of the class winner must be added to the results of the class a sufficient number of times so that the average for the class can be based on five scores.
